Week 25 Day 4 - Ionic Emulate, Run, View

Announcement

High School Code Camp, Fri Apr 1 - http://mountainlandcodecamp.weebly.com/

Review

Ionic Basics

Emulate & Run

Create new tabs starter app, view in browser, then build into an IOS app.
1. ionic start myApp tabs
2. cd myApp
3. ionic serve
4. ionic build ios
5. ionic emulate ios

If you have an iPhone or iPod Touch, and $99, you can run it on your device.
https://forum.ionicframework.com/t/ionic-run-ios-error-no-code-signing-identities-found/13920
6. [connect device to mac]
7. ionic run ios

Ionic Upload, Share, View

Create an ionic account:
1. Go to https://ionic.io
2. Click Sign Up

Upload app:
1. cd myApp
2. ionic add ionic-platform-web-client (see note below)
3. ionic io init
4. ionic upload

View app on device:
1. Run Ionic View app on mobile device
2. Login
3. Click on your app in app list
4. If on Android, click Download Files
5. Click View App

Note: When you're done developing, and sharing & viewing in Ionic View, run "**ionic remove ionic-platform-web-client**", AND **uncomment the cordova.js line in index.html**.

Exercise

Update the Chats tab to "People" and list the people from the SWAPI. Make sure you also update the chat-detail to "person-detail" to show the detail for any person clicked in the people list.
